About this Report

NBI/Michael Sone Associates' **Canadian Hosted PBX and Unified Communications (UC) Services Market Report, 2019 Edition** continues our coverage of the Canadian market for hosted voice and unified communications services.

This report covers the Canadian market for hosted voice and unified communications services by examining the current state and composition of the market, competitive dynamics, major drivers & trends, size (by users and revenues) and market share. The report discusses industry background, the competitive landscape, types of HPBX & UC services, and the business rationale. It covers the period 2017 – 2021 and profiles 11 companies, looking at their product offerings and go-to-market approaches.

We include at the end of the report an Appendix that provides a comparison of features and other service attributes between the companies profiled in this report. To facilitate the comparison, providers are grouped based on their main target market (large, medium or small firms). This can serve as a reference for competitors and customers alike in assessing the various providers' offerings.

This report is part of NBI/Michael Sone Associates' series of research reports on the Canadian telecommunications industry. Our other reports cover SIP Trunking, Cloud Computing, Data Centre Hosting, Enterprise Mobility Management & BYOD, Managed Security Services, Data Communications, Mobile & Fixed Wireless Services, the ISP Market, and Digital TV & Streaming Services.
